

THE  
**MILLHOUSE**  
SLANE - CO. MEATH

Welcome to The Millhouse, an elegant Georgian heritage manor and mill in the heart of Ireland's Ancient East. Here Georgian architecture and historic textile buildings stand beside the meandering River Boyne and a mature Orchard. A perfect setting for your big day.

## PROLOGUE

Our experienced wedding coordinators and hospitality team take great pride in offering you an imaginative, personal service. We will help you make your wedding that extra bit special and memorable.

The dramatic Ceremony Room in the Old Mill is incredibly romantic and a perfect blank canvas for you to bring your own personal style on your wedding day.

## HERITAGE MILL

The Georgian Manor House is located beside the Orchard river gardens and the Old Mill. Guests can enjoy the wonderful countryside as our nesting swans glide gently by. It is here, standing by the River Boyne, that one can feel our historic past and enjoy nature at its peaceful best.

The Millhouse offers both rustic and beautifully renovated spaces around the estate to take fabulous pictures.

## BOUTIQUE LUXURY

Our mirrored bridal dressing room is exclusively dedicated for bridal party preparations. In close proximity to the Manor House, this reflective space is both a luxurious retreat and a relaxing space to enjoy getting ready with family and loved ones on your big day.

Built in 1766, The Millhouse and the Old Mill, weir and millrace were once considered the largest and finest complex of its kind in Ireland. Originally a corn mill powered by two large water wheels, the harvest was hoisted into the upper floor granaries before being dried, sifted and ground.

# TAILOR MADE

Over time, the Old Mill became a specialised manufacturer of textiles turning raw cotton into luxury bed linen. Times have changed but this past remains part of our history, acknowledged and conserved.

In 2006 The Millhouse was creatively rejuvenated, transformed into a hotel and wedding venue of unique character - a nod to the early 1900s when it briefly served as a hotel-stop for passengers on pleasure steamer boats!

Our path of heritage continues. Today The Millhouse serves a new generation as one of Ireland's most characterful wedding venues.

The Ceremony Room, located in the Old Mill, is an original Georgian industrial space. With double-height open-beamed ceiling, this authentic warehouse-style room features imposing vintage crystal chandeliers and is large enough to seat 200 guests.

## BESPOKE WEDDING

The exposed brick walls add a timeless touch, infusing our interior with history and character. The Ceremony Room is opposite our Manor House and adjoins the lantern-lit Orchard, offering connected but entirely unique celebration spaces.

This stunning south-facing garden room with beautiful views of the Orchard and river seats up to 150 dining guests. It can be further extended to seat up to 240 people by adding a marquee.

## THE PAVILION

Decorated in warm, natural tones and with stripped-back wood flooring and a draped fabric ceiling, your guests can celebrate in style. At night the hidden fairy lights in the ceiling and the chandeliers create an unforgettable starlit atmosphere.

Our Head Chef and his fantastic team are dedicated to providing an impeccable service. We use seasonal, local produce sourced from the rich Boyne Valley area, Ireland's newest culinary region.

Our well-equipped private kitchen caters to your every request - from an outdoor glamping-style gourmet BBQ, to a four-course intimate banquet in the Pavilion.

## RIVERSIDE PARTY

At dusk, when the river has a golden glow, the Courtyard and Orchard fairy lights illuminate our garden pathways and trees, creating a beautiful, romantic atmosphere. Our Orchard provides a natural canopy for any outdoor summer ceremony or can be dressed to create your own bespoke riverside reception.

The Georgian Manor House furnishings are glamorous with a quirky twist. We have fifteen bedrooms to accommodate up to thirty-six guests - with further glamping options available on the estate. Guests are welcome to enjoy our stylish drawing room bars on the ground floor, luxurious and comfortable spaces in which to welcome friends and family.

## MANOR STYLE

The Millhouse bedrooms are all uniquely different. Bespoke-designed with French-inspired furnishings, each interior has sumptuous fabrics and contemporary décor; 'float through time' in our ornate claw-foot bathtubs - a vintage touch to our stunning bridal suites with views overlooking the River Boyne.

“In order to  
be irreplaceable,  
one must always  
be different”

Coco Chanel
